Custom Weapons Detection To Protect Your Facilities

Now more than ever, safety and security are top priorities. With innovative safety technology and advanced weapons screening from CEIA, you can protect facilities, staff and visitors from the moment they enter your doors.

CEIA's OPENGATE® is a groundbreaking weapons detection systems being utilized by some of the Southeast's largest school districts, universities and medical facilities. The system boasts:

- *No divesting of luggage, backpacks, purses or bags*
- *Extreme transit flow with near zero nuisance alarms*
- *Quick setup and install—weighing only 25 lbs with less than one minute setup time*
- *Applicable for both indoor and outdoor operations*
- *Customizable wraps for your school, business or event*
- *Remote management through the OPENGATE app via smartphone or tablet on iOS or Android devices*

Contact A3 Communications to schedule a demo of CEIA's OPENGATE® technology and learn how you can leverage it in your facilities.
