

NETWORK INFRASTRUCTURE

Optimize your network for growth, profitability and productivity

Your network is the backbone of your organization. Now more than ever, it needs to protect against cyber threats, connect your teams across multiple sites and campuses, have limited down time and grow with your organization. **But how do you create a network that does it all?**

With a network infrastructure partner you can trust. **A3 COMMUNICATIONS.**

Our more than 30 years of industry experience and growing partner network allow us to protect your organization from losing money, productivity and time due to network outages, malicious cyber activity and frustrated employees.

By leveraging IT best practices, our engineering team assesses your current network solutions, makes recommendations, delivers your new solutions and ensures seamless service from project inception to close.

Together we develop a network infrastructure that is intuitive and successful with:

- *Wireless Access Points*
- *Switches*
- *Network Security*
- *Structured Cabling*
- *Network Management Software*
- *Remote Connectivity*
- *Servers & Virtual Environments*
- *And, more...*

Optimize your network for growth, profitability and productivity by choosing a technology partner you can trust— A3 Communications.

- Structured Cabling
- Firewall & Cybersecurity
- Remote Connectivity

Together we're able to deploy network solutions to accomplish your IT goals and keep your students and staff connected. **Learn more about some of the organization's we've helped with E-Rate solutions.**

District Five of Lexington and Richland Counties

www.lexrich5.org

Statement of Work: For more than nine years, A3 has provided the District with structured cabling solutions, comprehensive Cisco networking (core, edge and wireless – 400+ access points and 150+ switches) and IP surveillance and access control across 24 schools. We currently hold a multi-year contract for networking, surveillance and access control.

Customer Testimonials: "A3 Communications has been one of the easiest service providers to work with. We have worked on so many projects with A3, especially this summer. Within a two month time period, A3 did 10 years of work for our district. As soon as the migration project was complete, we immediately started another district-wide project to upgrade surveillance cameras and access control at the schools. Without A3, we couldn't have done this work." – Brenda Counts, Technology Administrator

Charlotte-Mecklenburg Schools

www.cms.k12.nc.us

Statement of Work: With a relationship spanning more than a decade with A3 project managers and engineers, Charlotte-Mecklenburg Schools has awarded the firm with a variety of projects, including the installation of Siemon and Panduit structured cabling and Cisco access points at eight schools.

Client Testimonial: "A3 Communications has worked well with us in our projects, particularly with the fact that they can be one-stop shopping for the electrical, cabling and camera related parts of the job." – Glen Weckbacher, Senior Electrical Engineer

School District of Newberry County

www.newberry.k12.sc.us

Customer Testimonial: "Our goal was to find a vendor that we could depend on for quick support with a large knowledge base of different products. We have a small technology department and need the expertise A3 technicians provide. We felt A3 offered a high quality of service at a cost-efficient price. A3 has provided us with excellent support services. I can pick up the phone and call anytime to ask questions or for help." – Tina Leitzsey, IT Director
